As a partner in the corporate team, while I have considerable experience in advising directors and shareholders on a range of different types of corporate transactions, I have particular experience in transactions involving private equity (investment and M&A).

Having worked with acquirers, sellers, management teams, banks, investors and private equity, I have a good sense for what is reasonable to ensure that the interests of all parties are fairly protected. In addition to the UK-based clients I work with, I also work with clients in the US and Spain (I am fluent in Spanish) and, as a result, a lot of M&A transactions I advise on are cross-border and involve private equity.

I am ranked in the leading legal directory, Chambers and Partners 2024.

Areas of expertise:

- **Mergers and acquisitions** and cross-border M&A
- Private equity-backed M&A
- **Private equity** / growth capital investment
- Shareholder arrangements
- General corporate advisory

Qualifications and memberships

- Admitted as a solicitor in September 2001
- The Law Society
