As head of debt recovery, I work for clients to recover unpaid invoices.

With over 12 years' experience I use my calm, sensitive, firm but fair approach to collect debts. I am very effective at negotiating, and I have a natural way of communicating in a personable and professional manner, whilst being able to highlight the situation in a clear and realistic way to a debtor.

I regularly work with large asset-based lenders and financiers and work for small firms alike.

Another area of work I enjoy is book ledger collections, working with administrators and insolvency practitioners.

Areas of expertise:

- Letters before action and negotiations
- Legal proceedings
- Judgment and enforcement
