I am a partner in the corporate team with a specialist interest in receivables finance. In addition to my corporate practice, I am widely recognised as an expert in receivables finance and co-edit the authoritative text on the subject, Salinger on Factoring.

My approach is friendly and collaborative. I see my job as delivering what the client wants as successfully, quickly and as efficiently as possible. I take great pride in the quality of the work undertaken at Cripps. Above all else, we want our clients to enjoy the experience of working with us and to value the contribution we make to their businesses.

Over the last 30 years I have established myself as a leading corporate lawyer in the South East corporate finance community. In the asset based lending sector I am recognised more widely as an expert on the law of factoring and discounting.

My clients value my technical expertise and ability to quickly grasp the commercial aspects of any transaction. They also value my collaborative approach and my ability to offer clear and pragmatic advice.

I am passionate about the importance of keeping informed about changes in the law and sharing matters of interest.

I am ranked in the leading legal directory, Chambers and Partners 2024.
