I deal with commercial property matters including leases, acquisitions and disposals.

I really enjoy the challenge of applying the law in situations where commercial aims and objectives are paramount.

Very much a people person, I am considered to be a good listener, taking the time to carefully assess issues for both clients and colleagues alike, to come up with the best possible solution.

In addition to my commercial property work I also assist our corporate team on the property aspects of corporate transactions.

Areas of expertise:

- Leases
- Acquisitions and disposals
- Corporate support

Qualifications and memberships

- Admitted as a solicitor in October 2015
